Call for Papers

Since 1992, the Quantitative InfraRed Thermography (QIRT) conference is a biannual international forum which brings together specialists from industry and academia, who share an active interest in the latest developments of science, experimental practices and instrumentation, related to IR thermography.

Following conferences in Paris (1992), Sorrento (1994), Stuttgart (1996), Lodz (1998), Reims (2000), Dubrovnik (2002), Brussels (2004), Padova (2006), Krakow (2008), Québec City (2010) and Naples (2012), the 12th Quantitative InfraRed Thermography Conference, QIRT 2014, will take place on July 7-11, 2014, at the Mechanics & Engineering Institute of Bordeaux.

QIRT 2014 will cover, but will not be limited to, the following topics:

- State of the art and evolution in the field of IR scanners and imaging systems allowing quantitative measurements and related data acquisition and processing.
- Integration of thermographic systems and multispectral analysis. Related problems like: calibration and characterization of IR cameras, emissivity determination, absorption in media, spurious radiations, 3D measurements, certification and standardization.
- Thermal effects induced e.g. by electromagnetic fields, elastic waves or mechanical stresses.
- Application of IR thermography to radiometry, thermometry and physical parameters identification in all fields such as: industrial processes, material sciences, thermo-fluid dynamics, energetics, non-destructive evaluation, cultural heritage, environment, medicine, bio- medical science, food production...

QIRT short courses

In addition to the main technical program, the conference will include one-day short courses (Monday, July 7). The program and the related fees will be defined soon and presented in the conference website. It will include a general introduction to thermography in the morning and specialized courses on various application fields given in parallel during the afternoon (non-destructive evaluation, thermo- fluid-dynamics, building, thermomechanics...).

Summer course on thermomechanics

A summer-course (given in French) on thermography and thermomechanics of materials will take place from June 30 to July 4. The website will be opened and related to the QIRT conference site in October 2013.

TRAVEL INFORMATION

Madrid-Barajas Airport is a large international and domestic airport with frequent direct flights from many international destinations. There is a train service directly from Terminal 4 (T4) to Príncipe Pío Station (35 minutes, about 2.50 €), where the two official hotels are located. They are also metro and buses from the Airport to the city center (40-50 minutes, about 5-6 Euros). A taxi from the Airport could be another option but a little bit more expensive.

The radial structure high-speed train (AVE), regional trains and buses allow travel to Madrid from the most important cities of Spain. Furthermore, Madrid has an excellent underground system, a frequent bus network and many reasonably priced taxis for local transportation. We encourage our attendees to use the public transport.

ACCOMMODATION

Many tourist will be visiting Madrid at the same time of the congress. For this reason, the organizers of the EAT Congress has negotiated a large number of hotel rooms at attractive rates in our two official hotels:

- + **Hotel Celuisma Florida Norte****** (100 rooms already reserved):
 - 35.35 € (incl. 10% VAT) per person in double bed room including breakfast (buffet).
 - 59.35 € (incl. 10% VAT) single room including breakfast (buffet).
- + **Hotel Acta Madford***** (Number of rooms and prices available by September 2014). Actual normal price is about 55 € per a single room including breakfast.

Both hotels are 25 minutes walking to the venue and 10 minutes walking to the city center, and they have a bus station in front of their main entrance. Further information for booking them at the special prices of the congress will be provided in the "Call for abstracts" document.

There are cheaper youth hostels and bed-and-breakfast in the city center. In the next announcement we will provide a list with the most convenient ones according to their location and conditions.
